## Scrip collectors mark release of new study

The National Scrip Collectors Association has formally adopted a new logo in connection with the release of a major book on coal mine scrip tokens. The logo features the scene of a coal miner, with pick and dinner pail, emerging

from a mine entrance. The date 1972 is the year that the formal organization by laws and constitution was adopted by the group.

Present membership is more than 400 token collectors in 40 states. Semi-annual conventions are held in the eastern United States, with the next national meeting scheduled for the Holiday Inn in Fairmont, W. Va., on May 6.

The new coal scrip catalog

was compiled by Donald O.

Edkins of Framington, Mass., and follows five years of research and recording of all known specimens of coal scrip tokens. The hard-bound book contains more than 500 pages and lists in excess of 10,000 known tokens, including an approximate market value for each token. The book also has many pages of illustrations and is indexed for easy attribution.

The token group's annual dues are \$5, and this includes the bimonthly publication, *Scrip Talk* which contains features on tokens as well as a monthly mail auction sale feature.

For a sample copy of the bulletin as well as information on the new book, send a self-addressed, stamped envelope to Secretary Walter Caldwell, Box 29, Fayetteville, W. Va. 25840.

The group's new logo.

## FROM THE MAIL BAG.... AND WHAT HAVE YOU !!!

In the last issue we ran a clipping from Numismatic News with the press release on our new logo. To give equal time, to the left is the release from Coin World showing our logo and some info on NSCA... Incidentally, the new membership brochure has brought good results to this date. As will be noted on the membership report page, membership activity has picked up somewhat and a large number of these new members have also ordered one of the Edkins' catalogs.... Wonderful !! Every new member means a better NSCA.... Reproduced below is a clipping from a Richlands, Virginia newspaper on a find of paper scrip. There is a world of information to be learned from the paper scrip field and we would be pleased to have copies of your more interesting finds to reproduce in the paper now that we have the new electronic stencil cutting machine.... Scriptor R.R. Tippy reports that he lost his mother in February and has been busy having been in Illinois for several weeks. Our sympathy to Scriptor Tippy.... Scriptor C. E. Ziegler, Jr. forwards information on "monobel" as recently requested in the bulletin. He notes that monobel is improved ammonium nitrate explosive containing some nitroglycerine. He notes that after the December issue of TAMS Journal, he was contacted by a representative of Dow Chemical Company wanting to purchase the 20¢ Dow token that was written up in the article. They later featured the token in their house organ "Brinewell".... Mr. Walt Jellum of California (continued on next page)

## Mallory finds \$5 scrip

Richlands resident Clyde Mallory recently found this \$5 scrip dated back to the 1900's behind an old picture in his home.

Back in those days coal companies paid their employees scrip which they used as money certificates in exchange for goods.

The scrip that Mallory found shows that it was issued by Richlands Coal Company at Coaldan and had a serial number of 1258. The name of the recipient and the date, except for the year 190-, were not filled in.

It also says on the scrip that the money certificate could be punched according to the amount of purchase up to \$5. Printed around the edge of the scrip are numbers that add up to \$5.

FROM THE MAIL BAG - AND WHAT HAVE YOU !! (Continued )

writes concerning the scrip issued by coal companies operating on Spitsbergen, a Norwegian possession in the North Sea. He notes that the coal operations were started in the early 1900's by an American company headed by a Mr. Longyear from Mass. I remember something about this operation but cannot find my notes. Can anyone help on this?? Dick Coy writes that some of the Kopper's stores scrip that he purchased in one of the mail sales is identified in the Edkins' catalog as being counterfeit... He feels (as I do) that it should be identified as such when offered for sale and we will attempt to do this... As I recall, some of the Koppers and some of the Landgraff Realty are the only items presently known except the "restrikes" that were featured in recent issues of the bulletin.... Incidentally, I have been promised some additional information on the pieces that we recently wrote about... My informant notes that a lady on Route 60 in West Virginia purchased a quantity of the tokens and that she saw a trunk full of the stuff in the man's automobile. Unfortunately, she did not know to get a license number, name, etc. but the man promised to come back.... As noted in previous issues, we feel that these were "restrikes" made in Dayton by an unknown person without the consent of the management.... More information as we get it !! Scriptor Bill Williams pens that he does not like to pay insurance costs on only one piece of scrip from the mail sale and notes that he will take the loss from the postal service. Here, again, it was a slip on my part due to the lack of time and I will try to watch this in the future.... Haven't had a report on the Tri-State meeting held in Middlesboro, Kentucky on April 16th... Scriptors Crawford Blakeman, George Breeding, Jack Sharp and James Cooper were the hosts... Too, haven't had a report on the meeting held recently in Virginia - let's see - what town was that? About a half dozen collectors recently met at my office in Fayetteville and had a swap and shop session including Dr. Evans, Harold Snodgrass, Doug Tolley, A. B. Coleman, and John Pourgski.... Scriptor Lou Sutton is attempting to put together a national maverick token listing to help collectors identify these many mystery tokens. He is seeking descriptions of any mavericks and would like a foil or rubbing.... Bary Bender - the METCA Publisher - has recently joined NSCA and forwards some info on coal tokens in the state of Washington.... WOULD URGE THAT YOU GIVE THE NSCA CANDIDATES IN THE TOKEN AND MEDAL SOCIETY ELECTION YOUR SUPPORT SINCE NSCA - IN TURN - WILL BENEFIT !! Will try to list those that I know of in the next issue of "Scrip Talk"... More later so will see you in Fairmont !!

=====

W A N T E D !! UNITED MINE WORKER'S CONVENTION BADGES !! Will attempt to picture one or two below and see what develops from the new machine !! If you have any of these for sale or trade, please let me know. WALTER CALDWELL, BOX 29, FAYETTEVILLE, WEST VIRGINIA 25840

MARCH 25, 1978 ISSUE.... While some of our members may not agree with all of Mr. Donnelly's comments, my purpose in printing is to give you some ideas as to how your local papers could feature your scrip collection... In turn, NSCA could get valuable publicity and more new members.... This, in turn, will enhance the value of your collection... The more new members - the more the demand for tokens for collections.... Have you contacted your local news media about printing info about your collection ??

## Yesterday And Today

# Scrip Rare Today

By SHIRLEY DONNELLY

The collecting of coal company metal scrip is no longer a hobby with some people but a good paying business. For as long as I can remember, Col. Walter Caldwell, Fayetteville insurance tycoon, has been the proverbial "life of the party" in the coal company scrip collecting business.

He has gone at the scrip collecting business with hammer and tongs. Periodically he issues a publication called "Scrip Talk," one that has a widespread circulation. Of this publication, Col. Caldwell's letterhead carries the names of the several hats which he wears in the scrip business.

Of "Scrip Talk" he is editor, publisher, typist and janitor. All that work load would seem to establish the fact that the Scrip dealer colonel is a "one man band" in the business!

WHILE WRITING all manner of insurance is Walter Caldwell's balloon, the scrip business is his parachute. For 30 years he has been the adjutant (in case you don't know it, the adjutant is the one who does all the work) of the American Legion Post at Fayetteville.

It is the LaFayette Post of the American Legion and one of the largest in the state of which I speak.

For years I have been on the membership roll there, by sufferance, because I am the most no account member on the roster, it should be admitted in candor. But to get back to the subject of coal company scrip before my space runs out.

BACK IN the latter part of the past century, coal and timber concerns began to have their own coinage. It consisted of metal tokens which could be used as a medium of exchange in the stores operated by the companies issuing it.

As far as I have been able to find out, the first metal scrip used in West Virginia was the scrip issued by H. H. Harper, timber man and store operator right here in Raleigh County.

His name is kept alive by one of the roads that extends out of Beckley -- Harper Road, you know!

In my collection of "things" is one of the Harper scrip coins the size of the vanished silver dollar of better days. It bears the initials "H.H.H." -- standing for Henry H. Harper. A full set of Harper scrip is nowhere to be found today.

Scrip, or coal miners' money, used to be in evidence everywhere in these parts but just you try and see how much you can get your hands on today! At one time I had a lot of it but let friends talk me out of it. The result is that now when scrip is commanding high prices, I'm fresh out of it -- a good example of where a fool and his money are soon parted.

But I'm not the only one whose hind sight in money matters is 20 - 20. The wonder is that a fool and his money ever got together in the first place, though.

THE IDEA OF COAL company scrip was for a miner to draw his pay in advance in scrip. Then he could buy what he needed out of the coal company operated store where everything from candy to coffins was for sale at prices higher than in most other places.

Then in time the coal company would open up a filling station in a nearby town where the miner could buy gasoline with scrip. For example, the coal company at Minden opened a filling station in Oak Hill.

Miners would draw scrip, take it to Oak Hill, and sell it to a scrip dealer for about 75 or 80 cents on the dollar in order to get money to buy something in an Oak Hill store where it was cheaper than in the Minden company store.

Jim Martin was the big scrip dealer in Oak Hill. Jim had a store and bought scrip by the gallon, or in some such quantity. He would sell me scrip for which he had paid 75 cents on the dollar, sell it to me for 80 or 85 cents.

Then I could buy gasoline with that scrip -- a dollars worth of gasoline for a dollar in scrip!

TODAY THAT BARTER and trade game is a thing of the past. If you buy scrip today you pay a pretty penny for it. Here's what I mean. There was the Mary Frances Coal Co., with mines and stores at Ingram Branch and Robson down on Loup Creek in Fayette County.

A set of the scrip of that concern -- five cents through \$1 -- with nowhere to spend it now, sells for \$7 and \$8. Times was when a handful of it was to be had, but no longer.

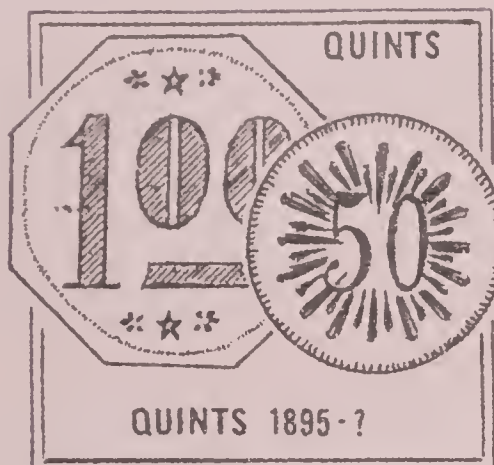

My old friend, the late C. P. Anderson headed up the Mary Frances Coal Co. When the toils of the trade and tribulations of this life began to get him down, C. P. went out of life through a side door. I miss him to this day.

Mary Frances Coal Co. was named for Mary Frances Harwood who was a daughter of the company doctor at Harvey.

**LAST BULLETIN CONTEST WINNER:** Scriptor John J. Podgurski, Mt. Hope, West Va.

The bulletin stated - quote "In the special brochure in this issue, I have discovered.. that a word is misspelled.." The special brochure was the membership brochure for new members, of course, and the word was "varietles" spelled "varities" by the printer.... Several mentioned words in the regular bulletin with "automatically" being the favorite entry, however, the special brochure was specified....

Remember: The rarity scale values in the Edkins Catalog are over two years old so take this into consideration when making bids in the mail auction sales featuring coal tokens !! With more and more collectors seeking good coal tokens, prices are on the increase (as is the price of everything today)!!

Too, we urge that you not miss out on the colossal collection being featured in the next mail auction sale !! Many of the offered selections have not been seen recently so you have an opportunity to add great material to your collection !!
